

Claude Code JSONL — Synthetic Format Sample

100 synthetic records demonstrating the Claude Code session transcript format. All content is fabricated (Django API debugging scenario). No real session data.

- [assistant] — Assistant turn (thinking / text / tool_use blocks)
- [user] — User turn (human message or tool_result)
- [file-history-snapshot] — File snapshot (tracks edited files per turn)
- [last-prompt] — Most recent human prompt pointer
- [mode / permission-mode / ai-title] — Session metadata
- [system] — Timing/duration metrics

mode	#1 of 100
